InfyTradeTech

COMPANY NAME

Infy Trade Tech Limited (brand: InfyTradeTech)

SHORT DESCRIPTION

InfyTradeTech is a fintech infrastructure and consulting company serving forex brokers, prop firms and trading businesses across CRM, trading technology, liquidity, APIs, risk management, platform administration and managed operations.

EXTENDED DESCRIPTION

Infy Trade Tech Limited builds the operational infrastructure behind forex brokerages and proprietary trading firms. Its work spans company formation and jurisdictional structuring guidance, trading platform deployment and administration, forex CRM and prop firm CRM, client portal and IB infrastructure, MT5 Manager API and custom integration development, liquidity and bridge integration, payment and KYC integration, risk management technology and a managed 24/7 dealing desk. InfyTradeTech is a technology and services provider to businesses only; it is not a broker and does not offer regulated financial services, investment advice or client fund handling.
